FOCUS | DNA INVESTING

Our investment philosophy hinges on investing in businesses / managements having strong DNA to perform better than industry over long period of time

BUSINESSES HAVING POTENTIAL AND CAPABILITY/ DNA to grow consistently at high growth rates over long periods of time while maintaining good quality of financials.

MANAGEMENTS THAT HAVE AND DEMONSTRATE ABILITY to grow ahead of industry in good and bad times without sacrificing quality of financials.

“Our investment style has been given a name - focus investing - which implies 10 holdings, not 100 or 400. The idea that it is hard to find good investments, so concentrate in a few, seems to me to be an obvious idea. But 98% of the investment world does not think this way.”

CHARLIE MUNGER

At InvesQ we practice **FOCUS** investing in **10-12 best ideas**

INVESTMENT OBJECTIVE

THE TEAM

Saurabh Lele
INVESTMENT ANALYST

An inquisitive Researcher with his skills in screening accounts and data. His past experience in audits is a great asset to InvesQ as it helps identify Red flags. Saurabh is a problem solver and path finder to dig relevant data for reaching conclusions to the most critical questions in Equity Research.

Shital Mane
TECH & OPERATIONS

A people's person who looks after Technology & Operations at InvesQ. She comes with a rich experience from her 14 year long career at Technology companies like Cognizant Technology Services and Mind Tree. She is an Engineering graduate in Computer Sciences and has an analytical bent of mind.

Sudeep Nair
BUSINESS DEVELOPMENT

Sudeep has over 13 years of experience in Business Development and Customer Service. In the course of his career he has represented Global Brands such as Citibank, Standard Chartered Bank and ING Vysya Bank in the retail banking and wealth management space. Sudeep strongly believes that nurturing relationships is the only way to develop a sustainable business model.

The number of securities that should be owned to reduce portfolio risk is not great; as few as ten to fifteen holdings usually suffice.
